WE ARE THE SPACE DIVIDERS!

As Alexander Cowie & Company, we supply partitioning for all requirements, from offices on the factory floor to prestige executive suites. For industrial, security and other uses, where high resistance and strength are required, we can supply systems of single-skin or double-skin metal panel constructions.

Our aluminium-framed composite panelling is particularly versatile. Its range can incorporate any layout and decor and construction can meet sound reduction or any special fire-rating requirements.

We undertake the dismantling and re-erection of all types of partitioning, whether originally supplied to us or not. We always have a large selection of re-conditioned partitioning available and we will purchase from customers any existing units which are surplus to requirements.

Installations, new and old, can be fitted from stock with a wide range of locks, catches, brackets, shelving, sign panels and other accessories to complement the layout.

Our comprehensive brochure is available on request from

## WE ARE THE SPACE DIVIDERS!

As Alexander Cowie & Company, we supply partitioning for all requirements, from offices on the factory floor to prestige executive suites. For industrial, security and other uses, where high resistance and strength are required, we can supply systems of single-skin or double-skin metal panel constructions.

Our aluminium-framed composite paneling is particularly versatile. Its range can incorporate any layout and decoar and construction can meet sound reduction or any special fire-rating requirements.

We undertake the dismantling and re-erection of all types of partitioning, whether originally supplied to us or not. We always have a large selection of re-conditioned partitioning available and we will purchase from customers any existing units which are surplus to requirements.

Installations, new and old, can be fitted from stock with a wide range of locks, catches, brackets, shelving, sign panels and other accessories to complement the layout.
