Results computed by Harry Hines who apparently owns English Electric Leo Marconi Computers. Thank you Harry.

We regret that an error in transcription of a 10 penalty has been found in the First Division after computing of the results (No fault of Harry's). This increased the average from 345 to 346 and percentages have been recalculated arithmetically. The percentages now vary by figures ranging from 0.2 to 0.4 from the computer sheet.
