

SHEPPERTON DIVISION II SLALOM RESULTS

1 April 1973

OUR SINCERE THANKS to the course erectors, the recorders in Control, and to the judges who performed their usual thankless task !

In direct contrast to last year, heavy water was nonexistent, and consequently a very close result has ensued. With competitors whipping around in the easy conditions it was possible to get well ahead of schedule, but the absence of an efficient p.a. system led to some difficulty of communication. However, we trust that all were satisfied with the arrangements in the final analysis.

Please, oh please, canoeists, do yourself a favour and co-operate with simple requests regarding car parking and litter clearing. There must be many organisers who, at the end of an event look around and ask 'is it really worth it ?' And there must be quite a number who decide that it isn't.
