DEE RACE I

10th January 1971

We express our gratitude to Harry Hines and Baric Computing Services Limited for calculating the averages and percentages but unfortunately the results were not returned before being caught by the postal strike. Eventually delivered by pigeon they are being duplicated during the strike but, being so late that another week or so will not matter, they will be held after the strike is over so that we can get back the computations of the February race also and distribute both sets under the same cover.
