

THE 1982 STRAND GLASS EXE DESCENT - SUNDAY, 14th NOVEMBER, 1982.

R E S U L T S.

Once again the Exe turned it on, not quite as high as the exceptional year of 1980 but still big enough to provide the challenge that has become 'The Exe Descent'. From the organisers point of view, some relief that the water level actually dropped between 18" and 2 ft. from its highest level on Friday afternoon!!

The event still continues to attract a very high number of entrants, however we feel we must again point out that in our opinion many entrants are just unprepared or incapable of handling the sort of conditions which often apply. At the start, we were disturbed to note the many competitors in Class 3A, B & C who were queuing to shoot the Weir on the extreme right hand side when in reality the weir here is shootable down the face from almost any position. We should again point out that the event is a race and not a day tour. Unfortunately, this criticism must apply to the large group entries, many of whom are taking advantage of our organisation, safety cover, etc. We would like to point out that the River is available for canoeing in the close fishing season, approx. October to February. Please contact the River Adviser, Jeff Felton, 33 Widecombe Way, Exeter, enclosing 50p in stamps for a permit. For groups visiting the area, Exeter C.C. will be happy to give advice, information and guidance - contact Dennis Walls, 3, Endfield Close, Exeter. Tel. 33811.

We are also disturbed by the number of canoes which disappear without trace particularly if they have been removed to the bank for later collection. In particular an Apache Slalom Canoe (Race No. 677) brown with black stripes, including a paddle, life jacket, helmet and spray deck which was removed from Tiverton Town. If you have it, please contact the owner - Maurice Walker on Wokingham 784498.

We would like to express our thanks and appreciation to all spectators and competitors for their behaviour whilst in the area. There are obviously problems caused by the sheer volume of people, but thanks to your help these are minimised. In particular thanks to all competitors for their patience in queuing at the check in. Despite a few problems of duplication, each starter has been allocated a Cape Industries Marathon Certificate Number. These will be entered in the next draw. You could win £200.

We are pleased to invite competitors to return for our White Water Race on the River Barle, Marsh Bridge, Dulverton to Exebridge - a distance of approx. 4 miles over Grade 3 water. Sunday, 16th January, 1983. Further details from Dennis Walls. Late entries very welcome - just turn up and paddle. Start 11.00 am. This event will be followed by the S.W. Region A.G.M. at Bampton Village Hall. Start 3.00 p.m.

The results listed below have been compiled as carefully and as accurately as possible, despite this some errors creep in - mainly due to illegible boat numbers and duplication. Whilst we have tried to sort out anomalies where they exist, in some instances this has not proved possible.

Finally, many thanks to Strand Glass for their help and assistance. Next year's Descent will be on Sunday, 20th November, 1983.
